An eye-catching heading means a lot

AN INFORMATIVE SUBHEADING ALSO DOES

A perfect document always starts with a perfect heading. Although nothing on earth is perfect, any document is expected to be as close to perfection as possible. Choosing an ideal heading is the first step when trying to draw up a well-structured and pleasant-looking document. What else should be taken into consideration is important?

1 ADDING TABLES

A document consisting of infinite text lines will definitely make the readers bored. That's why inserting adding tables can help to provide a better visual grouping of information.

YOUR TABLE

	Text description		
Text description	Parameter 1	45	5
	Parameter 2	70	10
	Parameter 3	155	5

ONLYOFFICE Folder permissions.docx

File Home Insert Layout References Collaboration Plugins

Margins Orientation Size Columns Breaks Align Group Bring Forward Send Backward Wrapping Watermark

1. **Folder hierarchy:** Parent folders and Subfolders

- If you do not specify certain permissions on a subfolder, the subfolder inherits the parent folder permissions.
- If some specific permissions on a subfolder are set, permissions on the subfolder have the higher priority than permissions on its parent folder.

2. **Profile:** Everyone, Groups, User, Admin

- User permissions have the higher priority than group permissions (i.e. you can assign permissions to an individual user, no matter which permissions has a group he/she belongs to).
- There is no group hierarchy, all groups are equal (i.e. one group cannot have priority over another).

3. **Access rights:** Full Access, Read Only, Access Denied

- **Access Denied** access rights have the higher priority than **Read Only** access rights.
- **Read Only** access rights have the higher priority than **Full Access** access rights.
- If a user belongs to several groups with different permissions on a folder, the user has access rights with the higher priority.

**Examples**

The following examples illustrate the scenarios when a user belongs to several groups with different permissions on a folder.

When a user is trying to access a shared folder, the permissions is checked in accordance with the priority order above:

1. if the current folder has permissions that differ from the parent folder permissions,
2. which profile-based permissions are specified on the current folder,
3. which access rights has the user

ONLYOFFICEのソースコードは、AGPL v.3のライセンスでGitHubで公開されている

The screenshot shows the GitHub profile for ONLYOFFICE. The profile header includes the repository count (95), package count, people count (28), and project count. Below the header, there are sections for pinned repositories, including 'CommunityServer', 'DesktopEditors', 'Docker-DocumentServer', 'onlyoffice-nextcloud', and 'AppServer'. A large QR code is overlaid on the right side of the screenshot, likely linking to the source code repository.

システム／非システム

www.onlyoffice.com

The screenshot displays the ONLYOFFICE web interface. The top menu bar includes File, Home, Insert, Layout, References, Collaboration, and Plugins. The Plugins tab is active, showing a toolbar with various plugins like Macros, Apertium, DeepL, Docs to..., Gramma..., Highligh..., Langua..., Mendeley, OCR, Photo E..., Pixabay, Rainbow, Speech, Thesaurus, Translator, YouTube, Zoom, and Zotero. The Apertium plugin window is open on the left, showing a language selection dropdown set to English to Esperanto, a text input field with the placeholder "Enter text manually", and a description in Esperanto: "Tradukas la elektita tekston en aliaj lingvoj. La kromsoftvaro uzas Google Traduki API. Ĉiuj la lingvoj subtenita de la servo estas subtenita de la ONLYOFFICE kromsoftvaro. La kromsoftvaro uza Apertium - libera tiumiro/-fonta maŝino traduka platformo". Below the description are "Copy" and "Insert to document" buttons. The main document area shows a document titled "apertium.docx" with the following content:

### Overview

Translate the selected text into other languages.

The plugin uses Google Translate API. All the languages supported by the service are supported by the ONLYOFFICE plugin.

The plugin uses Apertium - A free/open-source machine translation platform

### How to use

1. Select text you want to translate.
2. Open the Plugins tab and press Translator.
3. Select the language you want your text to be translated to.

### Using your service

You can send translation requests to your service. To do this, you need to change the url address of the **serviceUrl** variable in the **./scripts/apertium.js** file.

- Parameter 2
- Parameter 3
- Parameter 4

A dialog box titled "YouTube" is open, prompting the user to "Paste youtube video URL". The URL "https://www.youtube.com/watch?v=JzqxSas5OpYl" is entered in the text field. The dialog box has "Ok" and "Cancel" buttons.

Page 1 of 1

## ONLYOFFICEのプラグインとは？

### 入力ヘルパー

The screenshot shows the ONLYOFFICE interface with the 'Plugins' menu open. The document content is as follows:

### Installing plugins to document editors

Plugins can be added to any editor versions: server and desktop.

#### Adding a plugin to the desktop editors

You need to take the plugin files (config.json, index.html and pluginCode.js), archive it and change the file extension to .plugin. After that switch to the Plugin tab and select the Settings option. The plugin manager window will be opened.

Use the Add plugin button to load your created plugin. It will be added immediately to the opened editors and all the editors you will open afterwards. To delete the selected plugin the delete plugin button is used.

#### Adding a plugin to the server editors

There are two ways to add the plugins to ONLYOFFICE Document Server installation:

- Put the folder with the plugin code to ONLYOFFICE Document Server folder depending on the operating system:

The 'Add plugin' button in the interface has a dropdown menu with the following options: immediacies, immedial, immediately (highlighted), immediatism, immediatly.

## Rainbow

エディタ内でのコミュニケーションにRainbowを使用する

- プラグイン」タブで「Rainbow」を選択する
- Rainbowのアカウントにログインする
- チャットでコミュニケーション、音声通話、ビデオ通話ができる

The screenshot shows the ONLYOFFICE web editor interface. The top menu bar includes 'File', 'Home', 'Insert', 'Layout', 'References', 'Forms', 'Collaboration', and 'Plugins'. The 'Plugins' tab is active, displaying a toolbar with various plugins including Macros, Controls, Highlight, Mendeley, OCR, Photo Editor, Get and..., Rainbow, Telegram, Typograf, Count w..., Speech, Thesaurus, Translator, YouTube, and Zotero. The 'Rainbow' plugin is highlighted. Below the toolbar, a sidebar displays the Rainbow chat interface, showing a profile for 'Rainbow' with a logo and the tagline 'Make a Difference. Together.'. The main document area shows a document titled 'new.docx' with the following text:

### Overview

Communicate with your team, exchange instant messages and make video and voice calls using Rainbow right in the ONLYOFFICE editors.

Rainbow is a business communication platform developed by Alcatel-Lucent Enterprise (ALE).

The Rainbow plugin is compatible with self-hosted versions of ONLYOFFICE Docs.

### How to use

1. Open Plugins tab and click Rainbow.
2. Log in to your Rainbow account or create a new one.

## Draw.io

ダイアグラムの作成にはDraw.ioを使用する

- プラグインタブでDraw.ioを選択する
- ダイアグラムを作成する
- 「保存」をクリックする
- ドキュメントに図を挿入する

## Doc2md

Doc2mdを使用して、フォーマットされたドキュメントをMarkdown/HTMLに変換する

- プラグインタブでDoc2mdを選択する
- サイドバーウィンドウに対応するボタンを使用して、ドキュメントをMarkdownまたはHTMLに変換する
- コンテンツをコピーする

The screenshot shows the ONLYOFFICE Document Editor interface. The top menu bar includes File, Home, Insert, Layout, References, Collaboration, View, and Plugins. The Plugins tab is active, showing a toolbar with various icons, including the Doc2md icon (a document with a double-headed arrow). A side panel titled "Docs to Markdown" is open, showing two buttons for "Markdown" and "HTML", and a "Show settings" link. Below these is a text area containing the following content:

```
# **How the use of Doc2md integrated into [ONLYOFFICE Document Editor] (https://www.onlyoffice.com/it/document-editor.aspx)** may accelerate and simplify your work**  
Here we'll have a look at some ways Doc2md can be helpful.  
## **Publishing markdown-formatted plain text to a website**  
If you have to add content to your web page, Docs to Markdown may shorten the process by adding tags and elements to a text.  
You can choose between Markdown or HTML syntax:  
<table>  
<tr>  
<td>  
<td>  
Markdown  
</td>  
<td>  
HTML  
</td>  
<td>  
Output  
</td>  
</tr>  
<tr>  
<td>
```

The main document area displays the converted content, which includes a heading: "How the use of Doc2md integrated into [ONLYOFFICE Document Editor](#) may simplify your work". Below the heading is a paragraph: "Here we'll have a look at some ways Doc2md can be helpful." and another heading: "Publishing markdown-formatted plain text to a website". A table follows, comparing Markdown and HTML syntax for headings and paragraphs. The table has three columns: "Markdown", "HTML", and "Output".

Markdown	HTML	Output
# Heading level 1	<h1>Heading level 1</h1>	<b><u>Heading level 1</u></b>
## Heading level 2	<h2>Heading level 2</h2>	<b>Heading level 2</b>
### Heading level 3	<h3>Heading level 3</h3>	<b><i>Heading level 3</i></b>
Example of a paragraph	<p>Example of a paragraph</p>	Example of a paragraph
Use of <b>bold text</b>	Use of <strong>bold text</strong>	Use of <b>bold text</b>
Use of <i>italicized text</i>	Use of <em>italicized text</em>	Use of <i>italicized text</i>

At the bottom of the side panel, there is a "Copy" button. The main document area also has a footer: "Would you like to give it a try? Get [ONLYOFFICE Editors](#) and convert your document to the markdown (.md) format."

  </body>
</html>
```

## 独自のプラグインを作成する方法

プラグインのスタイルを調整する

「index.html」ファイルにONLYOFFICEスタイルシートを追加する：

```
<link rel="stylesheet" href="https://onlyoffice.github.io/sdkjs-plugins/v1/plugins.css">
```

## 独自のプラグインを作成する方法

### プラグインをローカライズする

プラグインディレクトリ内にtranslationsフォルダを作成し、各言語の「.json」ファイルを配置する

```
{  
  "name": "Highlight code",  
  "nameLocale": {  
    "de": "Code hervorheben",  
    "es": "Resaltar el código",  
    "fr": "Code en surbrillance",  
    "ru": "Подсветка кода"  
  },  
}
```

## 独自のプラグインを作成する方法

### プラグインを公開するための準備

1. プラグインの「詳細情報」ウィンドウを作成し、簡単な説明を記述する
2. プラグイン用のアイコンを用意し、メインのプラグインフォルダに配置する
3. 「Readme」ファイルを作成する

## 独自のプラグインを作成する方法

### プラグインをテストする

1. デスクトップアプリ、セルフホスティングバージョン、またはクラウドベースのONLYOFFICEエディタにプラグインを接続する
2. プラグインのパフォーマンスをテストする

```
(function(window, undefined){
  var text = "Hello world!";
  window.Asc.plugin.init = function() {
    Asc.scope.text = text; // export variable to plugin scope
    this.callCommand(function() {
      var oDocument = Api.GetDocument();
      var oParagraph = Api.CreateParagraph();
      oParagraph.AddText(Asc.scope.text); // or oParagraph.AddText(scope.text);
      oDocument.InsertContent([oParagraph]);
    }, true);
  };
  window.Asc.plugin.button = function(id)
  {
  };
})(window, undefined);
```
